PROJECTS

College Events Management System

Designed a centralized web platform for managing college events, featuring event browsing, registration, scheduling, user authentication, and efficient database-driven event and participant management ([Live Demo](#) - [Source Code](#)).

Village Job Search Portal

Many rural job seekers struggle to find reliable local employment opportunities due to limited access to job information and digital platforms. The Village Job Search Portal bridges this gap by connecting rural job seekers with nearby employers through a simple and accessible platform.
